

My family, which includes a child and her friends, listen to KLove exclusively. We do not listen to other radio shows due to inappropriate content. The core of who I am is the content of the music on K-Love. We have turned several people onto K-Love. With all the choices out there why remove the one that is clean all the time. K-Love is funded by donations so you know people want their music. To take away a choice of music that we pay to keep on the air would be devastating. It is one choice my child can make on her own without me and other parents like me worrying about the content of the music. Please, please DO NOT take away that choice.
